

London Free Flap Course

20th-21st October 2022

Explores the basic anatomy and harvesting techniques for the most commonly used local, regional and free flaps used in Head and Neck surgery. Two full days of practical exercises on cadavers with maximum two attendees each to explore the anatomy and raise flaps for Head and Neck reconstruction. The programme has interactive videos and demonstrations of the latest 3D surgical planning techniques. The faculty comprises practising head and neck reconstructive surgeons from units in London

Course Convenor:

Mr Abdul Ahmed, Consultant OMFS Northwick Park Hospital

12 Hours CPD
Course fee: £1000
