

3rd London Multidisciplinary Head and Neck Laser Course

This 2 day event is aimed at ENT Trainees, Oral and Maxillofacial Surgery trainees, Theatre nurses, ODAs, Anaesthetists, SAS and Consultants from OMFS/ENT

The course aims to:

- introduce the basic fundamentals of laser and its use in head and neck surgery
- promote and improve patient and staff safety
- enhance multidisciplinary team efficiency
- certification of core competencies in laser application

The first day will be a knowledge based online webinar. Day 2 will include tutorials, demonstrations and practical hands-on workshops using wet and dry simulations at the Griffin Institute.

9th September (3 hours CPD) core knowledge online - £40

9th September (6 hours CPD) core knowledge & clinical application online - £70

9-10th September (12 hours CPD) core knowledge, clinical application & hands on workshops - £700
